“John Mattone is one of the World’s innovative thinkers in the field of executive development and human capital management.” —*HR Executive Magazine*

JOHN MATTONE is widely regarded as the world’s leading authority on the future trends of leadership development and talent management. He was recently named by Thinkers50 as one of the fastest rising stars in the field of leadership development. The Thinkers50 is the definitive global ranking of management thinkers and is published every two years. John was ranked as one of the world’s emergent thought leaders on the 2011 Thinkers50 “Guru Radar” list.

Powerful Executive Coaching

Leaders can make or break a company—which is why coaches are so crucial. Effective coaching can ensure that executives reach their peak potential and drive organizational results.

Powerful Executive Coaching delivers a concise, but powerful

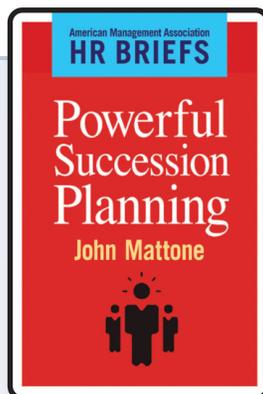

look at how to coach current leaders and high potentials. It goes straight to the core components of successful coaching: assessing and enhancing the essential inner-core attributes (i.e., resilience, empathy, creativity) and outer-core skills and competencies (i.e., decision-making, critical thinking, communication) required of excellent leaders.

Including carefully selected worksheets and tools, *Powerful Executive Coaching* explains some of the most critical skills, such as how to:

- Handle a coaching intervention
- Prepare individual development plans
- Structure and conduct coaching effectively
- Interpret feedback
- Deal with resistance
- And promote self-awareness.

It’s just what you need, and only what you need, to get started on high-impact coaching that will drive leaders to success.

Powerful Succession Planning

An alarming “brain drain” of executive talent is projected for the coming years as retirement looms for many . . . yet few replacements have been groomed to fill their shoes. High-potential candidates account for less than 8 percent to 10 percent of the talent pool. Identifying, developing, and retaining these emerging leaders is a mission-critical challenge for CEOs, senior executives, managers, and HR directors.

Powerful Succession Planning provides a succinct but thorough overview of how to develop a succession planning and management program. The Succession Planning Map™ helps guide the process, aligning vision and values with the actual steps and processes that make up an effective

program. The five-step “nuts and bolts” plan for any talent assessment/succession management effort includes conducting planning meetings, building design architecture, documenting outcomes, and implementing the program. Nine key assessment tools used to calibrate potential leaders’ performance, potential, and readiness are identified and described, with detailed information on the strengths of each. Lastly, a succession management diagnostic tool helps any organization quickly gauge the health of its succession planning process.

Powerful Performance Management

To survive in today’s hypercompetitive marketplace, leaders must find ways to elevate the performance of their employees. By continuously setting higher goals to strive for, strengthening employee competencies via coaching, and providing feedback to employees, leaders can create a positive performance cycle that leads to improved individual and team performance and, ultimately, stronger operating results for the organization.

This action guide covers the three stages of performance management: goal-setting, coaching, and performance review. It includes step-by-step instructions and tips, the 10 elements of positive performance management, the five steps to preparing for a review, guidance on how to prepare the employee and

engage them during the review, the most effective steps you can take to improve performance, and more.
